- **Feb 23<sup>h</sup> - *House of Dynamite***
- **March 30<sup>th</sup> - *Dr. Strangelove Or: How I Stopped Worrying and Leaned to Love the Bomb***
- **April 27<sup>th</sup> - *The Beginning of the End of Nuclear Weapons***

To mark the 80th anniversary of the US bombing of Hiroshima and Nagasaki, the Center has launched the Hiroshima Commemoration Project (HCP), an initiative to raise local and statewide awareness of the UN Treaty for the Prohibition of Nuclear Weapons and the opportunity it provides to realize a nuclear free world. HCP efforts include hosting educational events about nuclear weapons and nuclear disarmament throughout 2025, and sending a small delegation to Hiroshima and Nagasaki in August. Information about these events and related campaigns will be posted on this page.
